JAVA	Ruby on Rails
mySQL	Final Cut Pro
Swift 3.0	Ruby

INTERESTS

Massive open online courses
Member of South East Makerspace
Artist
Volunteer at Kilkenny Art Festival

EDUCATION

Waterford Institute of Technology *SEPT 2016 - JUNE 2017*
BSc (Hons) Multimedia Application Development **1:1**

Currently I am studying; Management, Web Application Development, Web Server Pogramming, Advanced Multimedia Database and Concepts, Video Commercial Production and Editing, Macintosh Development, and Enteprise Development. For my fourth year project, I am building a User Interface framework. For the development of the framework, I am using a mixture of SASS, and SCSS. The Framework is designed for entry level user with a focus on easy to understand vocabulary. I will also be introducing concepts such as partials which will be built using nunjucks, The framework will contain custom themes I have built. The framework can also be downloaded through the command line.

Waterford Institute of Technology *SEPT 2013 - JUNE 2016*
BSc Multimedia Application Development **Distinction**

I then continued my studies at the W.I.T, I studied modules such as Graphic Design, Multimedia Imaging, Digital Audio Production, Server Side Scripting, Human Computer Interaction,Web Developement, Software Engineering, OO Programing Principles, Database Systems, and eLearning.

Waterford College of Further Education *SEPT 2012- JUNE 2013*
FETAC 5 Multimedia **Distinction**

I began my studies with a level 5 course , I studied modules such as Web Authoring, Image Processing, Multimedia Authoring, and 2D Animation.

WORK EXPERIENCE

Freelance *JULY 2016 - MAR 2017*

I was a freelance video editor contracted by Vitamin Studios for video work, some of my projects include designing, and developing webinars for Dr Mark Rowe's health seminars using Adobe Illustrator, and Final Cut Pro.

nearForm *JUNE 2015 - DEC 2015*

I was an intern as part of my flexible semester module. My responsibilities were mantaining the nearForm website which was built in Wordpress, building event websites such as NodeConfEU in HTML5, JavaScript, and using nodeJitsu to deploy. During my placement, I also contributed to open source projects such as CoderDojo, and Seneca.

Butler Gallery *MAR 2011 - MAR 2015*

I was an intern, and part time invigilator. My responsibilities were to great all vistors, share my knowledge of the current exhibition, and to answer any queries. I was responsible for light office work, finding volunteers to cover lunch breaks, and weekend work amongst other tasks.
